## Greek Goddess Treatments

Greece always admired **beauty and love**, so much so the ancients personified this admiration to a mighty goddess, **Aphrodite**.

**Pamper yourself, get a personalised beauty treatment** in the name of Aphrodite **by our expert dermatologists and return at home refreshed and rejuvenated** Treatments are by appointment and may be performed at the clinic or at your hotel room.

### 1. Botox/Dysport

The most famous cosmetic treatment:

- Temporarily make moderate to severe frown lines, crow's feet, and forehead lines look better in adults
- The face will look natural. You'll look like yourself—only with less noticeable facial lines. No one should be able to tell you've had anything done.

**Duration:** Treatment requires minimal downtime. You can return to your daily routine immediately after you leave dermatologist's office. You may begin to notice results within 24 to 48 hours for moderate to severe frown lines. Full results in 15 days. Result lasts for 4-6 months approximately.

**Cost:** €290

## 2. Dermal fillers

### The best way to fight ageing.

Dermal fillers are used for facial aesthetic treatments and are injected into the skin. Filler can significantly turn back the clock by reducing the appearance of facial fine lines and wrinkles, contouring and augmenting areas prone to volume loss, such as the cheeks and lips. Dermal filler injections can give a more youthful appearance and a natural looking result that does not affect facial expression. This is done without invasive surgery.

Dermal fillers are based on Hyaluronic acid which is a substance that naturally exists in your skin. It binds water and it is important for the transport of nutrients and in regulating water balance in the skin.

**Duration:** Dermal fillers are a soft injectable gel consisting of stabilized, non-animal hyaluronic acid. The gel is tissue-friendly and closely resembles the hyaluronic acid that exists naturally in the skin. The result of a single treatment can be seen instantly. It is long-lasting (1-2 years depending of filler type) but not permanent. Treatment requires minimal downtime. Tenderness, mild pain and bruising may be experienced following treatment.

**Cost:** 290-430€ per syringe depending of the kind of filler

### 3. Mesotherapy

Mesotherapy is a technique of injecting amino acids, minerals, enzymes and vitamins into the middle layer of the skin using very fine needles.

The idea behind mesotherapy is that it corrects underlying issues like poor circulation and inflammation that cause skin damage.

Mesotherapy is a treatment method that provides benefits in many different ways depending on the application area. It is used to remove excess fat in areas like the stomach, thighs, buttocks, hips, legs, arms, and face and to reduce cellulite. Also, it is used to rejuvenate and tighten skin, fade wrinkles and lines and lighten pigmented skin in the face, neck, décolletage and backs of the hands.

**Duration:** Treatment session lasts 30-60 min. You can return to your normal routine directly following treatment. You may experience some redness, itching, tenderness or bruising after treatment. This usually passes after 24 hs. You'll probably need several mesotherapy sessions to get the desired effect.

**Cost:** The cost of mesotherapy depends on the type of solution injected. In general, a single session costs between €140 and €170

#### 4. Skin boosters

Skin boosters are an injectable treatment that is designed to deliver deep skin hydration. They're also sometimes referred to as injections for skin quality, as they promote a natural glow and radiance.

This treatment involves the microinjections of deeply hydrating hyaluronic acid and/or peptides., which restores the moisture in the skin, improves its elasticity, firmness and radiance.

The most common uses of skin boosters are for facial rejuvenation. Also, this treatment is effective in treating areas particularly prone to premature ageing such as the back of the hands and décolletage where the skin is thinner, neck, the upper inner arms, inner thighs, knees and abdomen.

Depending on the treatment chosen, some of the potential benefits include:

- More radiant complexion
- Healthier skin tone
- Reduction in visible lines and wrinkles
- Tighter, lifted skin
- Better hydration – a flattering 'glow'
- Firmer skin texture
- Softer skin with more elasticity
- Reduction in patchy pigmentation

**Duration:** The treatment takes just 30 – 60 minutes. You can return to your normal routine directly following treatment. You may experience some redness, itching, tenderness or bruising after a treatment. This usually passes in a few days.

**Cost:** 190-250€

## 5. Peeling

Chemical peels are a popular anti-aging treatment that can take years off of your appearance and restore that glowing, youthful skin. Chemical peels improve the look and feel of skin.

A chemical peel is a procedure in which a chemical solution is applied to the skin to remove the top layers. The new skin that grows back is usually smoother and less wrinkled than the old skin. They are used to reduce fine wrinkles, Improve the appearance of mild scars, reduce age spots, freckles, and dark patches (melasma). Moreover, areas of sun damage may improve after chemical peeling.

They can be done at different depths, from light to deep. Also, summer peels are a great solution to take the advantages of a peeling during the summertime with the relevant precautions.

Chemical peels can be done on the face, neck, or hands.

**Duration:** Treatment lasts 30-60minutes. Depending upon the type of chemical peel, a reaction similar to scaling (various degree of scaling) starts 3 days following the procedure and ends within three to seven days.

After a [chemical peel](#), skin is temporarily more sensitive to the sun, so [sunscreen](#) use is needed every day and time spend in the sun must be limited.

**Cost:** 130-180€ depending of the peel type.

### Extras for Mykokos Island

#### i) PRIVATE TOUR TO DELOS

Meet your private driver and English-speaking guide and head towards the Old Port of Mykonos to board a public ferry to the UNESCO World Heritage Site on the islet of Delos, a must-see for fans of history, archeology, and Greek mythology.

After a short sailing of 30-35 minutes, arrive at the uninhabited Aegean islet of Delos, home to one of the most important archaeological sites in the eastern Mediterranean Sea.

Reputed to be the legendary birthplace of the twin gods, Apollo and Artemis, the remains of temples and residences on Delos range in age from the Neolithic to Roman periods.

Explore the remains of the Temple of Apollo, the Sanctuary of Artemis, the Old City, the Theatre Quarter, and stroll along the Terrace of lions. Take shelter from the sun after exploring the ruins by visiting the Archeological Museum of Delos, home to an extensive collection of statues unearthed in Delos and its surroundings.

The collection covers a range of periods, from Archaic, Classical, Hellenistic and Roman eras. After your visit, board the ferry back to Mykonos and return to your hotel by private vehicle.

#### **Cost per person: 200€**

Include: Half Day (4 hours) Private Tour to Delos (private official guide/boat transfer/land private transfer+entrance fees)
